

EndoSheath[®] Technology

The sterile, disposable solution for flexible endoscopy

EndoSheath[®] Technology is not your typical barrier. Designed to offer a strong, durable, proven effective microbial barrier, this is not just a simple cover. By providing a barrier between the endoscope and patient, EndoSheath[®] Technology allows for less complicated cleaning and disinfection routines, and improves equipment turnaround time. All the difficult-to-clean endoscope components with EndoSheath[®] Technology are disposable, including: the barrier, the channels, the ports, and the seals. Clinically proven, EndoSheath[®] Technology allows for efficient, effective endoscope reprocessing in any setting.

With EndoSheath[®] Technology there is strength in numbers...

- **20+** years on the market
- **30+** FDA clearances
- **37+** systems with CE Mark
- **9+** systems with HealthCanada license
- **5+ million** procedures performed worldwide
- **0 cross-contamination complaints**

Reusable Endoscope

EndoSheath[®] Technology

EndoSheath[®]
Technology

*A brand with strength.
A name you can trust.*

Pioneering Infection Control with EndoSheath® Endoscopy

EndoSheath® Advantages:

- EndoSheath® Technology is a proven effective barrier to organisms as small as 27 nanometers per FDA requirements and testing
- Over 5 Million EndoSheath® products sold over 20 years without a single reported complaint of patient-to-patient cross contamination
- EndoSheath® Technology is designed to stretch and maintain its integrity, and not to tear or break during procedures
- All EndoSheath® disposables are 100% leak tested during manufacturing with a 0% acceptable failure rate for production
- All barriers, channels, ports, seals, and tubing are sterile and disposable
- Concerns over biofilm, bioburden, and issues of improperly rinsed devices are eliminated for patient contact areas, as they are always new, sterile, and disposable
- Easy to use and prepare limiting the complexity of endoscopy preparation routines
- Compatible with standard accessories such as biopsy forceps, needles, and other endoscopic devices
- Over 30 research studies performed on EndoSheath® Technology since 1992
- Disposables feature a 3-year shelf life
- EndoSheath® Technology is FDA cleared and CE marked

Currently available for:
Bronchoscopy, Cystoscopy,
Esophagoscopy, and Laryngoscopy

Innovative Solutions:

Sterile, durable, disposable
Microbial barrier

A reusable endoscope

A sterile, disposable
channel for every
procedure

Unique "D-Shape"
endoscopes

Patented system allows
for complete isolation of
endoscope from patient

About Vision-Sciences, Inc.

Vision-Sciences, Inc. has brought pioneering concepts to the world of flexible endoscopy for over 20 years. With the patented EndoSheath® Technology and innovative endoscope designs, Vision-Sciences, Inc. has transformed the economics of flexible endoscopy while enhancing patient safety for Otolaryngology, Gastroenterology, Urology, and Pulmonology practitioners. Vision-Sciences has made a commitment to help physicians transform their practices with the EndoSheath® Technology.
