EndoSheath® Technology

The sterile, disposable solution for flexible endoscopy

EndoSheath® Technology is not your typical barrier. Designed to offer a strong, durable, proven effective microbial barrier, this is not just a simple cover. By providing a barrier between the endoscope and patient, EndoSheath® Technology allows for less complicated cleaning and disinfection routines, and improves equipment turnaround time. All the difficult-to-clean endoscope components with EndoSheath® Technology are disposable, including: the barrier, the channels, the ports, and the seals. Clinically proven, EndoSheath® Technology allows for efficient, effective endoscope reprocessing in any setting.

With EndoSheath® Technology there is strength in numbers…

- 20+ years on the market
- 30+ FDA clearances
- 37+ systems with CE Mark
- 9+ systems with HealthCanada license
- 5+ million procedures performed worldwide
- 0 cross-contamination complaints
EndoSheath® Advantages:

- EndoSheath® Technology is a proven effective barrier to organisms as small as 27 nanometers per FDA requirements and testing.
- Over 5 Million EndoSheath® products sold over 20 years without a single reported complaint of patient-to-patient cross contamination.
- EndoSheath® Technology is designed to stretch and maintain its integrity, and not to tear or break during procedures.
- All EndoSheath® disposables are 100% leak tested during manufacturing with a 0% acceptable failure rate for production.
- All barriers, channels, ports, seals, and tubing are sterile and disposable.
- Concerns over biofilm, bioburden, and issues of improperly rinsed devices are eliminated for patient contact areas, as they are always new, sterile, and disposable.
- Easy to use and prepare limiting the complexity of endoscopy preparation routines.
- Compatible with standard accessories such biopsy forceps, needles, and other endoscopic devices.
- Over 30 research studies performed on EndoSheath® Technology since 1992.
- Disposables feature a 3-year shelf life.
- EndoSheath® Technology is FDA cleared and CE marked.

Currently available for:
Bronchoscopy, Cystoscopy, Esophagoscopy, and Laryngoscopy

Innovative Solutions:

- Sterile, durable, disposable Microbial barrier
- Unique “D-Shape” endoscopes
- A reusable endoscope
- A sterile, disposable channel for every procedure
- Patented system allows for complete isolation of endoscope from patient

About Vision-Sciences, Inc.

Vision-Sciences, Inc. has brought pioneering concepts to the world of flexible endoscopy for over 20 years. With the patented EndoSheath® Technology and innovative endoscope designs, Vision-Sciences, Inc. has transformed the economics of flexible endoscopy while enhancing patient safety for Otolaryngology, Gastroenterology, Urology, and Pulmonology practitioners. Vision-Sciences has made a commitment to help physicians transform their practices with the EndoSheath® Technology.
